

TWO TON BOTTLE JACK

Thank you for choosing this fine product from GRIOT'S GARAGE. The **TWO TON BOTTLE JACK** is designed to lift cars, trucks and SUV's. The saddle design provides a safe and form fitting lifting pad. The saddle is adjustable and may add up to 2½" of height. Enjoy the best.

USEFUL INSTRUCTIONS

The vehicle to be lifted should never exceed the 2-ton rated capacity of the jack. Never operate the jack beyond its maximum stroke. Park the vehicle to be lifted on a flat firm surface and place wedges under the wheels to keep the vehicle from moving. Position the **TWO TON BOTTLE JACK** on a solid, even & horizontal surface; never use the **TWO TON BOTTLE JACK** on a slope. The **TWO TON BOTTLE JACK** should be positioned so as to avoid the user from having to operate it under the vehicle. Every vehicle lifted by the **TWO TON BOTTLE JACK** should always have a secondary safety support, such as jack stands. Before using the **TWO TON BOTTLE JACK**, make sure that the vehicle is free of passengers, handbrake engaged and the engine is off. Consult your vehicle handbook for jacking points. In the absence of jacking points the **TWO TON BOTTLE JACK** should be positioned under the center of the load. Failure to position it correctly may cause the load to be unbalanced, resulting in possible equipment/load damage and operator injury. It is imperative that all possible precautions are taken to avoid unexpected movement of the vehicle load when it is being lifted. The **TWO TON BOTTLE JACK** is a lifting device only and should never be used to move the vehicle or load. If these basic rules are not followed, injury to the user, the **TWO TON BOTTLE JACK** or the vehicle being lifted may result. As an additional safety feature the **TWO TON BOTTLE JACK** is equipped with a valve to prevent the unit from being overloaded. This unit is factory set and must not be tampered with.
